SUMMARY

AI/ML Engineer in training with hands-on experience building real-time applications in Python, OpenCV, Deep Learning, NLP, and Streamlit. With a foundation in Electronics & Communication Engineering and current B.Tech studies in Artificial Intelligence & Machine Learning, I bring a systems-level perspective to building practical AI solutions. I have developed projects across computer vision, speech, analytics, and full-stack AI applications, and I am seeking opportunities to contribute to impactful real-world AI/ML systems.

EDUCATION

B.Tech

Artificial Intelligence & Machine Learning

ICFAI Foundation for Higher Education, Hyderabad

Diploma

Electronics & Communication Engineering

Holy Mary Institute of Science & Technology,
Hyderabad

LANGUAGES

- English
- Telugu
- Hindi

KEY ACHIVEMENTS

Successfully delivered multiple real-world AI projects including a real-time AI chat assistant and emotion detection system

SKILLS

- GitHub
- Deep Learning
- HTML
- Flask
- Pandas
- Python
- NLP
- CSS
- Streamlit
- Visual Studio Code

PROJECTS

global-terrorism-dashboard

Global Terrorism Dashboard

- Created an interactive analytics dashboard visualizing global terrorism data with filterable charts and insights
- Implemented data processing pipelines and visualizations using Python libraries

Real-time AI Chat Assistant

Real-time AI Chat Assistant

- Built a conversational AI agent for English Springs using Open AI's Real time API
- Implemented seamless voice interaction with low-latency Web Socket communication for real-time responses

Emotion Detection

Emotion Detection from Facial Expressions

- Developed a real-time facial emotion recognition system using CNN-based deep learning models
- Classified 7 human emotions from live or static facial images with high accuracy

IFHE Healthcare – Medical Camp Management System

- Architected and built a full-stack medical camp management system to streamline patient flow from registration to medicine dispensing
- Integrated JWT authentication, role-based access control, QR workflows, and MongoDB for secure and efficient healthcare operations

Personal Details

Date of Birth : 15-06-2006

Nationality : Indian

Date:

Place: Hyderabad

(V. JOTHIK KANTH)
